

Kent Keyboard Show

5th and 6th Feb 2011 - see us there

We are once again going to attend one of our favorite shows details here: <http://www.musicland.co.uk/musicfair/>

HAMMOND
player
clinics and
workshops

If you get chance to visit us at the Kent International Keyboard Show it would be great to see you.

This year I am going to try and do lots of Q&A sessions as well as the normal hands on and demo stuff.

Ever wanted to know how to tweak the sounds of your XK beyond recognition ?

Sessions on recording Hammond into existing songs / mixes and using the mighty Hammond with computers and arranger keyboards

Malc Deakin

If you have ever wanted to own, learn to play or are just interested in Hammond Organs, this is the show you should really attend.

show you around the incredible New Generation Hammond Organ and Leslie Speaker range

UK product specialist and Hammond Artiste Malc Deakin will be on hand along with Hammond Organ UK Managing Director Barrie Freeman to answer all you questions and

There will be lots of live sets and clinics to suit all tastes in music and styles

See next page for a more detailed schedule of sessions

At this show there will be a once in a lifetime chance to own a limited edition HAMMOND M44 at an incredibly low price

We will be offering our ex-demo M44 spinet for sale at less than **half its normal price**

The M44 is limited edition luxury spinet based on the same award winning technology as the Hammond XK-3

One Only - First Come - First Served

SOMETHING FOR ALL TASTES IN MUSIC AND PLAYING STYLES

special deals at the show

I have prepared lots of interactive groove material and will be showing you how to create a groove from scratch and add that Hammond Ingredient to the mix

I have put a brief description and some audio examples on my BLOG. [click here](#)

.....Malc

This year we are going to concentrate on the XK-3c - Pro XK-system and XK-1 We get loads of email and calls asking "how do I make my Hammond ? " So here is your chance for a Q&A session with Malc

Many Home and Pro users are asking about how we make the demos and the relationship with Hammond and the current digital / computer recording / performance so we would like to try and show you how it is done and how you can do this yourself.

Many of our customers use arranger keyboards like Tyros / Ketron / Korg etc etc .

We will show you how you can integrate a Hammond into your existing keyboard set up.

We will show you how to turn the XK-3c and XK-1 into not just one Hammond .. but every kind of Hammond you have ever heard !!! Not matter what your taste in music and your favorite flavour of Hammond is.

If you have been to one of our events before you will already know that we are 'laid back' - 'friendly' - and love to meet up with our customers and friends past, present and hopefully future

Oh ... did we mention ? We pump out some decent Hammond Grooves and music too (:

There is something for everyone so hope to see you there ... **Barrie & Malc**

SESSIONS AND CLINICS ON HOW TO

Use the New generation Hammond Organs

play the mighty Hammond in LIVE PERFORMANCE with a band or solo

Add the Hammond Ingredient to your music / mix

Use XK-3c / Pro System and XK-1 with Computer Based DAW and Virtual Instrument Plug-Ins in the studio and live [examples here](#)

Edit the various system parameters to create your ideal Hammond

Use Hammond Organs with your existing Arranger Keyboard, Piano, Synth or other MIDI equipment

BIG SCREEN PRESENTATIONS WITH CAMERAS

see exactly how all the above is achieved on our large screen projection system. there will also be time available for 1 to 1 sessions and plenty of opportunities to try all the gear for yourselves.

dont miss out on your chance to 'Meet the New generation Hammond Organs'
